Memorandum of Understanding For the conservation program between Sam Ratulangi University And Aquamarine Fukushima, Marine Science Museum

This Memorandum of Understanding is made between Dr. Donald A. Rumokoy, the Rector of Sam Ratulangi University (hereinafter referred to as UNSRAT) and Mr. Yoshitaka Abe, the Executive Director of the Aquamarine Fukushima, Fukushima Marine Science Museum (hereinafter referred to as AMF). UNSRAT and AMF have collaborated in conducting conservation program for coelacanth and their habitat of coral reef environment.

The UNSRAT has established the International Coelacanth Research Centre and Marine Museum (hereafter referred as ICRCM) to conduct the conservation program. The purpose of this memorandum is to confirm that AMF is ready to support on the conservation activities as a vice director of ICRCM. The duration of this memorandum will be initiated for a period of five years. In addition, the end of the duration both parties will review the results and modify a new MOU. This memorandum shall become effective on the day when representative of both Institutions affix their signatures and official stamps.

17 November 2012
